ABOUT

INSANOVA 2025 is the grand annual Arts Fest of Manhajurrashad Islamic College, celebrated each year with a unique name, theme, and creative vision. This year's powerful theme, "HERALDING THE HOPE OF HUMANITY", encourages students to become a new human by refreshing their mind, heart, and spirit, standing against the forces of non-humanity in the world. The name INSANOVA is a meaningful combination of "Insan" (Arabic for human) and "Nova" (Latin for new star), symbolizing the rise of enlightened individuals who inspire positive change in society. The festival brings together three dynamic teams Team Malaga, Team Murcia and Team Merida, each representing unique values of cultural harmony, resilience, and visionary strength. Through visual arts, and literary expression, these teams compete and collaborate to spread the message of compassion, unity, and moral responsibility, shaping a hopeful future for humanity.

HERALDING THE **HOPE OF HUMANITY**

LOGO ROUTE

The logo of Insanova – Manhaj Arts Fest 2025 is designed as more than just a visual identity; it is a symbolic narrative of what the fest represents. The first letter *i* takes the shape of a quotation, signifying the power of sayings, wisdom, and the transmission of ideas. The following *n* carries the form of a pigeon, a universal emblem of peace and humanity, while its upward flight reflects the concept of aspiring higher in life and career. The *s* integrates the image of a painting brush, highlighting creativity and artistic expression, and the letter *a* contains a central element resembling a person on stage, representing performance, drama, and the courage of self-expression before an audience.

The second row continues this story with deeper meaning. The *n* is placed in a reflected form, symbolizing a return to peace, while its embedded pen emphasizes that writing and intellect are revolutionary tools against cruelty and oppression. The *o* is marked with a microphone, representing speech, music, debates, and poetry—giving voice to diverse expressions. The *v*, simple in design, provides balance while symbolizing unity and inclusivity, embracing all forms of art. The final *a* contains two shapes resembling comment boxes, symbolizing dialogue, debate, and communication, which form the intellectual heart of an arts festival.

Altogether, the logo reflects the fest's vision: a celebration for peace, creativity, performance, and dialogue. It presents the arts not only as a medium of beauty and culture but also as a revolutionary force for unity, humanity, and transformation.
